I believe in God, the Father Almighty, creator of heaven and earth.

I believe in Jesus Christ, his only Son, our Lord, who was conceived by the Holy Spirit, born of the Virgin Mary, suffered under Pontius Pilate, was crucified, died, and was buried; he descended to the dead. On the third day he rose again; he ascended into heaven, is seated at the right hand of the Father, and will come again to judge the living and the dead.

I believe in the Holy Spirit, the holy catholic church, the communion of saints, the forgiveness of sins, the resurrection of the body and the life everlasting. Amen.

### \* The Gloria Patri

### FAN SPOTLIGHT: March is Colon Cancer Prevention Month

Are You Eating Processed Meats? Harvard’s School of Public Health researchers have a large-scale review of how processed meats impact the risk of cardiovascular disease and diabetes. Just 1.8 ounces of processed meat daily (the equivalent of two slices of deli ham or one hot dog) was associated with a 42% greater risk of getting heart disease and a 19% greater risk of getting diabetes. Processed meats include any meat preserved by smoking, curing, salted or with the addition of chemical preservatives such as nitrates. They include sausage, hot dogs, bacon, salami and processed deli meats. Instead, eat fish, shellfish, skinless poultry, beans, wild game, soy, omega 3 eggs, nuts/seeds and low-fat dairy products.
